EASTER—April 17, 1949

In our fifty-second year of business, we take pleasure in presenting this catalog of fall bulbs—and seeds. A new departure—that of including seasonable seeds in this catalog, but it seemed to us it should be helpful in enabling you to place orders earlier. We suggest the advisability of doing that promptly; also with your bulb orders. The serious floods in Oregon have wiped out some plantings—our growers fortunately escaped—but it means a lesser quantity to be available.

Croft Lilies have proven their worth—both for Easter pot plants and for cut flowers from cold storage. The crop is not as large as last year. Nothing to lose—everything to gain—by ordering now.

We suggest on items which may be short in Tulips, Hyacinths, Daffodils—permitting us to substitute if necessary with others nearest in size and similar in color. Needless to say if price declines before delivery date—you will be given the benefit.

We appreciate your confidence in these fifty-two years and shall most earnestly endeavor to warrant it in the future.

Sidney H. Skidell

President.

LILIUM CANDIDUM (NORTHERN GROWN)

HARDY LILIES

DELIVERIES FROM LATE FALL ON

Plant bulbs immediately on arrival in a well drained soil, giving them plenty of opportunity for root action. The containers should then be set on a raised platform in a cool, semi-dark place, affording perfect drainage. When flower buds appear, the plants will then readily submit to forcing. They may also be planted out of doors for flowering in June and early July and later.

PLEASE ORDER IN CASE LOTS. WE CANNOT ACCEPT ORDERS FOR LESS

Candidum (Madonna Lily). This lily likes a good, deep loamy soil, not too dry, and a sunny situation where it can be left undisturbed for years. Plant shallow, covering the bulbs not more than 1 inch or 2-3 inches if the soil is very light. Height 4-6 ft. June flowering.
